(United Kingdom)

Dear all,

World Book of Records has been exploring great personalities, innovative creations, places of historical significance and organizations since its inception through authenticate certification process at transcontinental level. I am grateful for all your support and trustworthiness.

In the global crisis of Covid-19 pandemic, civil society, local informal first-responders, civil society, the Diaspora, businesses, local governments, military, local and international non-governmental organizations all play a crucial role in a timely delivery of humanitarian aid. They are serving society and humanity through their matchless contribution in such a period of distress and agony. They even espouse the cause with synergy and innovative coordination.

In association with World Record Publishing Company which is certified from Quality Certification Limited, London, it has started an initiative to honor and appreciate outstanding personalities as well their organizational work through Star 2020 Certification. With this initiative, people who are espousing the cause through matchless services to society and nation amid the Covid-19 Lockdown across the world are being provided with appreciation certificates. They all are significantly noticeable because they are fulfilling their duties abiding the laws of the nations and spreading the new hope and positivity among natives. It is worth mentioning that Star 2020 Edition would document all certified people and organizations in an online directory.

Significantly, it is also notable that Star 2020 is not a world record document rather it is an appreciation certification.

We hope that Star 2020 online certificate and directory will shoulder full responsibility of acknowledgment of good deeds at international level.

Please stay at home, stay safe as well as make yourself engage in innovative and enthusiastic work.
